WEDDING PLANNING AND FULL-SERVICE CATERING
NYS is now a Marriage Equity State

Now Taking Wedding Reservations for 2012-13!

During the past thirty years I have catered hundreds of weddings in a variety of locations in the Finger Lakes. The weddings at wineries are among the most memorable for you and your guests.

I do not use a set menu for any wedding as I feel that the best menu comes from a discussion with each bride and groom. In this way, I can take tailor a menu to your food likes and dislikes, your ethnic background, the tastes of your guests, and your budget.

Our foods are all prepared in our licensed kitchens using the very finest ingredients. During the season, we use local fruits and vegetables and grow many of our own produce with organic techniques. I have a large supply of fresh herbs and edible flowers as well that add that special touch to your special day.

After a preliminary contact with you by phone or email, we begin the food discussion. I also urge you to set up a time with me for a food tasting in my kitchen in Pulteney to finalize food plans. We can also do food and wine pairings at that time if you like.

I look forward to meeting you and working with you.

Typical menus start at \$35 per person and go up. Food, staffing and rental items are billed separately.
